Janet-DHS wrote on Wed, 13 July 2022 08:57 Following is a response from DHS Research & Data Analysis Director, Tom Pullum: block blast

"GM" is the code for Gambia, and Gambia did not have a survey in 2017. You must have meant "GH" and the Maternal Health Survey done in Ghana in 2017. This was a "special" survey, not a "standard" DHS survey, and it did not include the variables you mention. Those variables are in the 2014 standard DHS survey.

Thank you so much!
