Following is a response from Senior DHS Specialist, Tom Pullum:

We can't help you with this question. We only have a couple of SPSS users on the DHS staff and they do not use multi-level modeling.

Your question is not specific to DHS data, so I suggest that you look for an SPSS users forum or a general expert on SPSS. Stata, especially version 13, would meet your needs, but you may not want to shift to Stata just for this.
