Hello Liz-DHS:

I quote from 3rd sentence " ... to the child's pregnancy and postnatal care ...". is it okay? or we have to read it as "... to the child's prenatal and postnatal care ..." or " ... to the woman's pregnancy and postnatal care ...".

Is there any way to access your entire CPro code for Bangladesh? so that we can translate parts of the code whatever require into other language such as SAS, SPSS, Stata, and R etc of our choice. Appreciate in advance. Two things come together as we also learn CPro and we re-program correct CPro code using correct variables etc; moreover this will save time of us and you. Thanking you.
