Hi Trevor,

I apologise I forgot to mention I have an amalgamated dataset.

For the v705 variable, code "11" is in Guinea DHS2012 but code "10" is found in several countries/years:
Malawi (DHS 2000); Rwanda (DHS 2005); Mali and Niger (DHS 2006); Sao Tome/Principe (DHS 2008-09); Nepal (DHS 2011); Gabon, Guinea, Kyrgyzstan (DHS 2012); Philippines (DHS 2013); and Democratic Republic of Congo (DHS 2014).

The v127, code "41" is in Cambodia (2000, 2005 and 2010).
For v129, code "40" is in Azerbaijan 2006 only but code "41" is in Peru (2004-06; 2007-08; 2009; and 2012).

Is there another source/document I should use that provides the label names for country-specific roof/floor materials? Would country reports provide a description of different materials?

Many thanks in advance,
Annalijn
