Hello,

I would like to work with the variables M15, M65A-M65X, V744A-V744E. However, when going through the data, these variables have no answers and are completely blank. Reading the 2011 Report from this dataset, I know that these variables were reported on, but for some reason, they do not appear when I open STATA, SAS, or SPSS datasets. Is there something I am able to do to view these?

Thank you!
