The Tanzania 2010 Full Report (p.29) describes some findings related to household food insecurity. However, I cannot seem to locate these variables in the data. I have downloaded the Stata versions of the household recode (TZHR60DT), individual recode (TZIR60DT), and male recode (TZMR60DT) but I cannot seem to find any variables related to food insecurity. Can you please point me in the right direction?
