Wondering how to use the DHS and SPA together to draw appropriate conclusions? Unsure about the practical implications of linking DHS data to health facilities or other infrastructure?

Join us for a webinar: Considerations when Linking DHS Household Data to Data on Health Facilities and Infrastructure

on July 28, 2015 from 10-11am EDT (UTC/GMT-4).

Panelists include:

Clara R. Burgert, MPH GIS Coordinator

Wenjuan Wang, PhD Senior Technical Specialist

Debra Prosnitz, MPH Technical Specialist

This webinar is designed for researchers & program staff who are familiar with DHS data, analysis & research methods.

Prerequisite: Please read DHS Spatial Analysis Report 10 prior to the webinar. Free PDF available [here](#). The focus of this webinar will be on the methodological and conceptual issues when linking DHS household data to facility data including appropriate research questions, operationalizing health facility and infrastructure data, and what conclusions can be drawn after linking data.

Please note: This webinar will not discuss the mechanics of how to link DHS household data to facility or infrastructure data within a GIS.

Submit your questions by July 17th [here](#) under the topic "Linking DHS and Facility Data Webinar July 2015". Then join us live to hear the answers and discuss these topics with our experts in our Adobe Connect Room, [here](#).
