Subject: Re: Country-specific codes for some variables Posted by Asnrakoto on Fri, 24 Jul 2015 15:38:44 GMT View Forum Message <> Reply to Message

Dear Liz-DHS,

Thank you for your reply, but I still do not know how did you do to show the codes. I am using SAS, I looked at the frequencies (by using PROC FREQ) and I added the LABEL command but nothing appears (it only shows the number by which each response was coded). If you could give me more information about that. Thank you for your comprehension.
