Another response from Tom Pullum:

Please try the attached program. The main problem is that some of the indexed variables, such as sh203, have indices with a leading 0--for example, 01, 02, 03, rather than 1, 2, 3. Stata has a very powerful rename command, so you need to include " rename *_0* *_* " to get rid of those 0's.

Hope this will work.
