## Subject: Infant and child mortality Posted by sumonrupop on Sat, 12 Sep 2015 15:36:46 GMT View Forum Message <> Reply to Message

Hi,

I am wondering how to measure the infant and child mortality from DHS data set. It would be so nice if I know the step-wise instruction to calculate the infant and child mortality from DHS data set, especially BDHS (2011). Thank you.

Sumon
