Subject: Family structure Posted by Sadhara on Sun, 01 Nov 2015 13:42:06 GMT View Forum Message <> Reply to Message

I am intending to create a variable "family structure" with the fpollowing categories 'single family', 'nuclear family' and 'extended family' using DHS data. I need help on how to get the best results. Should I use the individual file only? Or should I merge with the household member file and or the male file? I need help.
