Following is a response from Senior DHS Stata Specialist, Tom Pullum:

You can identify the youngest child (under five) who is living with the following lines, after you have opened a KR file:

```
keep if b5==1
sort v000 v001 v002 v003 bidx
egen sequence=seq(), by(v000 v001 v002 v003)
keep if sequence==1
```
