Hello,

I am conducting an analysis using DHS data from several countries in East Africa. Why are there "no observations" for the data on whether one has "ever been tested for AIDS" (v781) and "when was the last time you were tested for HIV" (v826) in the 2007-08 Rwanda DHS? Is the data not in this dataset or were the questions never asked? If it is the former case, is it possible for me to obtain this data?

Thank you.
