Subject: Re: Cote d'Ivoire Merging HIV and Women/Men datasets using SPSS Posted by Bridgette-DHS on Fri, 25 Oct 2013 16:43:39 GMT View Forum Message <> Reply to Message

In Cote d'Ivoire 2005 there is an additional ID variable: HIVSTRUCT in the HIV dataset and SSTRUCT in the Women's dataset. You need this additional ID to do the merge correctly.
