Dear User,

The last full Women's Status Module was available as part of DHS5. However, almost all surveys have some questions which can contribute to a woman's status. On the survey web page it shows a list of survey characteristics. It does not specifically say Women's Status "module".

Attached is a list of questions for the Ethiopia DHS 2011 which may contribute to Women's Status.

I am also attaching the list of questions from the Standard Women's Status module from DHS5 surveys. Ethiopia DHS 2011 was a DHS6 survey. Please feel free to post if you have additional questions.

Thank you!
