Subject: Language of interview/survey instrument in multi-lingual countries Posted by amaustin on Mon, 28 Dec 2015 14:01:49 GMT

Hello,

When DHS surveys are implemented, in countries with multiple language groups, how does the DHS ensure that the questions are understood correctly by all? i.e. are the surveys in English and the questions translated, and answers recorded in English? Are the surveys translated into the local language?

Thank you,

Anne
