Hi,

I am struggling with some NAs in Malawi DHS 2010.

Where do the

- a) 1397 NAs in V824: 'Drugs to avoid AIDS transmission to baby during pregnancy'
- b) 14499 NAs in V3A08M: 'Reason not using: Knows no method'

come from?

I would have understood if the NAs in V824 for example had been 122 as in V823, but this is not the case.

Thank you in advance.
