Dear User,
The height and weight recode variables for women are: HA0 through HA41
The height and weight recode variables for children are: HC0 through HC33
Take a look through your frequencies and map files and use The Standard Recode Manual http://www.dhsprogram.com/publications/publication-dhsg4-dhs-questi onnaires-and-manuals.cfm for further guidance. You will also find The Guide to DHS Statistics useful http://www.dhsprogram.com/publications/publication-dhsg1-dhs-questi onnaires-and-manuals.cfm. If you have additional questions, please feel free to post again. Thank you!
