It appears that I have posted 3 times the same topic- apologies.

I have one additional question regarding the Peru DHS 2012.

The variable v017 states that the beginning of the calendar for that survey is 1273. After I recoded the calendar it did not match my further calculations.

I have checked that the previous Peru DHS 2011 had the same value of that variable (v017==1273) which makes me think that there might have been some mistake made with regard to that variable for 2012 survey. According to my calculations the beginning of the calendar for year 2012 should be 1285.

Would you be able to advise me on that matter?

Many thanks,  
Ewa
