---

Good afternoon,

I am trying to analyze the relationship between fertility behaviors and specific health outcomes. I am trying to include a comparative wealth index variable as I'm doing this analysis for Cote D'Ivoire-2011; Guinea-2012; Mali-2012; Niger-2012; and Senegal-combined 2014&2015 Continuous.

Does anyone have the required alpha and beta values for these specific surveys? Thank you so much in advance.
