Hi,

I'd like to confirm if this 2015 special DHS provide full birth history info. And if the following columns in the data file "EGIQ73FL.sav" are:

A109C: date of birth for child (CMC); AGEND: sex of child; A100C: age of mother for each child;

May I know if there's a column indicating the birth order (or parity) for each child? Thanks.
