Subject: Reading in Niger HH data into SAS Enterprise Guide Posted by TomGrey on Thu, 05 May 2016 16:42:12 GMT View Forum Message <> Reply to Message

Hello,

I am new to using SAS Enterprise Guide. I've downloaded the Niger Household and Woman's DHS datasets -- .sd2 file format. SAS Enterprise Guide will not let me read these version 6 files, and although I try to convert to version 8, I can only create a temporary dataset. I do not seem to have permission to write that dataset.

The DHS Program User Forum

Can anyone suggest a solution?
