Hello,
Thanks you.
I merged the men, women, and children level data (IR, MR, KR) as a household unit. Now i want to declare survey for data set, Please let me know command is correct?

gen wgt=hv005/1000000
(880 missing values generated)

. svyset [pw=wgt], psu(hv021) strata(hv023)
??

Many Thanks

Rashid
