When I tried this, using the code below, I get 2667 couples, with 2407 that answered G102:
use "MLIR53FL.DTA"
clonevar mv001 = v001
clonevar mv002 = v002
clonevar mv003 = v034
merge m:1 mv001 mv002 mv003 using "mlmr53fl.dta"
Let us know if you are finding something different with the same code.
