Hello

I am looking for the variable which corresponds to Question 535 ("How long after delivery did the first check take place?") asked of ever-married women with births in recall period, irrespective of birth location, on the 2014 survey (IR file). It doesn't seem to show up in the usual "m" variables, and I have also searched the survey-specific variables.

Can you help please?

Many thanks

Lenka

The information you are looking for is in the m51 variable in the IR file.
