Dear Colleagues at DHS,

UNFPA would like to propose:

- a) a short revision of the current obstetric fistula (OF) optional module (see attached file). Please note that the text in red represents the rationale we are proposing while the text in blue represents the changes we are suggesting.
- b) that the OF be implemented in all DHS countries affected by OF (see list of 57 countries at the end of the attached file).

Thanks for your attention to this request.

Edilberto

The maternal health team at USAID also supports additional questions on obstetric fistula.

Thank you, Allisyn
