Subject: Methodology for creating the variable v023 =strata Posted by ashish.hss on Mon, 20 Sep 2021 06:02:02 GMT View Forum Message <> Reply to Message

Dear Sir/ Madam,

Could you please let me know how the variable v023 =strata is calculated in the NFHS-5 India?

How can we use the svyset command for the two-stage sampling?

We have answered similar questions for NFHS-4. Please be aware that NFHS-5 data are not yet available, however, answers for NFHS-4 would apply to NFHS-5 as well. Please see:
