Dear User,

I am working with Nigeria DHS 2008 and wish to estimate perinatal mortality and wealth quintiles (wealth index). Can I have help with do-files for early neonatal deaths and stillbirths from someone?

Regards

Tukur

Dear User,

DHS does not produce estimates of these outcomes and cannot help with this request.

However, if there is a particular table you are interested in replicating from the final report? I may be able to provide some CPro code to help guide your analysis.

Thank you!
