I'm looking at the Zimbabwe 2015 DHS, and have been unable to find data on v632a, the decision-maker on non-use of contraception. This question does appear in the Zimbabwe questionnaire in the Final Report (question 820), but is NA in the women's recode file. Was this question actually asked, and is there data available on it? Thank you!

Following is a response from DHS Research & Data Analysis Director, Tom Pullum:

We apologize for the long delay in posting this response. Although Q820 is in the questionnaire for this survey, there was a skip error and the question was never asked.
