Hi,

I will like to know whether the 2018 Nigeria DHS dataset has the following variables:

1. Acceptance to perform children's genotype testing for sickle cell (yes or no)
 2. Acceptance to perform children's malaria testing (yes or no)
 3. Aspirin use in children (yes or no)
-

To answer questions like this, it's easiest to go to the pdf for the final report and search the report, especially the questionnaires (which are always in an appendix) for keywords.
