Hello,

Do you have an updated version of the list of surveys that asked the questions on abortion?
I need to find out the most recent information on both miscarriage and stillbirth, but not abortion.
So I want to cross reference these two datasets.
I see the previous 2017 version of this excel file. I'm wondering if there is any update on it?
Thank you very much for your help!

To see a list of surveys with information on miscarriages and stillbirths, please use the survey characteristics search on the website, and search for "pregnancy history". This will indicate the surveys that include information on stillbirths and miscarriages.
