
Subject: Smaller administrative level for Peru DHS

Hello, I want to merge the Peru DHS from 2000 to 2012 with another data at the "district" level, but the DHS only gives "region". I know I can match the DHS with the GPS data, but there are only GPD data for Peru between 2000-2009 and not 2009 onwards. Are there any other ways to get the more precise "district" level locations for the individuals in the surveys?
Thank you very much.
