Subject: Opening and using GPS-Data
Posted by Carla on Mon, 06 Feb 2023 17:10:04 GMT

Dear all,

i want to use GPS-Data to match it with another dataset. I already have acsess to the GPS-data and downloaded it. However all downloaded data has formats that i cant open/use because of the data formats.

I would like to use the GPS-Data in R so if anyone could tell me how i can and work with it in RStudio i would be really thankful.
