Subject: Replicating 2000 and 2005 EDHS PNC timing for the mother Posted by gebretsh@gmail.com on Fri, 10 Feb 2023 10:58:55 GMT View Forum Message <> Reply to Message

Dear Dr Tom, and the other DHS experts,

I would kindly like to call for help in replicating the PNC timing for the mother for the 2000 and 2005 EDHS.

Specifically, though I attempted to get the same results as in the pdfs using standard codes (prepared by the DHS),

I cannot replicate Tables 10.9 of the 2000 EDHS and 9.7 of the 2005 EDHS, both on mothers' timing for their PNC.

As always, I would like to thank you for your help.

Regards,

Thank you for submitting your question. Please refer to the link below for finding your indicator of interest.

DHS code library on GitHub, choose the Stata, SPSS, or R repository according to the software you use: https://github.com/DHSProgram/

The indicator you are interested in is in chapter 9.

If still needing assistance, please let us know.
