Hi, I am trying to apply sdweight in domestic violence module of nfhs 5 data analysis . but the result is not matching with the report table.

I have mentioned the command below

```
ta v101 anyvio1 [iw=sdweight/1000000],r
```

Kindly help. its urgent

Thank you for submitting your question. Could you please provide some more detailed information so we can better advise you?

Can you let us know:

- Which survey you are using (Include country name and year)?
- Which data files you are referring to?
- Which software you are using (Stata, SPSS, R, etc.)?

If you are trying to match a Table in a final report, please also indicate which table and which estimate you are trying to match.
