The survey documentation indicates that the survey was administered in 15 local languages. It is not clear if these translations were pre-prepared in all languages, a few more common languages, or if the translations from English were done on the fly by trained enumerators. Any clarification on these details would be much appreciated.

Following is a response from Senior DHS staff member, Joy Fishel:

We have checked, and there were written versions of the questionnaire in the following 16 languages, including English:

English
Borana
Embu
Kalenjin
Kamba
Kikuyu
Kisii
Luhya
Maragoli
Luo
Maasai
Meru
Mijikenda
Pokot
Somali
Swahili
Turkana
