I am waiting for the HIV/Other Biomarkers Datasets of Rwanda DHS 2019-2020 to be uploaded, but it has been unavailable for a long time. Could you solve this problem? Thank you for your assistance.

Following is a response from DHS staff member, Tom Pullum and Rathavuth Hong, the survey manager for this survey:

All the biomarker data from the 2019-20 RDHS have been released, except for the HIV and Micronutrients (MN) markers. The HIV data should be available in June, 2023, and the MN data in the next few months. We regret the delay but it is due to some local constraints.
