Hello. Co-authors and I would like to publish figures we have generated using a DHS dataset for a chapter in a recent book. Do we need copyright permission to display such data in our publication?

Thank you so much.

Dear User,

You do not need copyright permission, but we ask you to appropriately cite DHS data. Please see our recommended citations page

<https://www.dhsprogram.com/publications/Recommended-Citation.s.cfm> on information for how to cite DHS Program data including datasets.
