Thank you for submitting your question. Could you please provide some more detailed information so we can better advise you?

Can you let us know:

- Which survey you are using (Include country name and year)?
- Which data files you are referring to?
- Which software you are using (Stata, SPSS, R, etc.)?

If you are trying to match a Table in a final report, please also indicate which table and which estimate you are trying to match.

Following is a response from DHS staff member, Tom Pullum:

This is potentially a very complex question, and goes beyond what is possible on the user forum. I encourage you to look through DHS reports, but also other publications that have used DHS data.
