Hello!

Could you please share with me the code used to produce "Table 2 Prevalence of disability among women age 1549" on page 18 (see attachment) in the report below:

MacQuarrie, Kerry L. D. and Julia Fleuret. 2022. Patterns of Reproductive Health among Women with Disabilities. DHS Analytical Studies No. 80. Rockville, Maryland, USA: ICF.

The prevalence I am getting from my calculations and samples differ for some of the countries.

Thank you!

Witness

I'm not from the DHS, but, they've done a great job documenting base code - wonder if the codebase on their github page helps?

<https://github.com/DHSProgram>
