Hi everyone. I have found a variable of the dataset. It is called "knowledge of any method" and it is v301. I wonder what does the "method" mean. Does it mean the method of assisting in childbirth?

Thank you for submitting your question. Could you please provide some more detailed information so we can better advise you?

Can you let us know:

- Which survey you are using (Include country name and year)?
- Which data files you are referring to?
- Which software you are using (Stata, SPSS, R, etc.)?

If you are trying to match a Table in a final report, please also indicate which table and which estimate you are trying to match.
