# Subject: Use of ASFR to calculate estimated annual births by age group Posted by pkaburi on Mon, 30 Oct 2023 16:43:08 GMT <br> View Forum Message <> Reply to Message 

I want to estimate the number of annual births by age group including age 10-14. Is it okay to multiply the ASFR by estimated population of women in that age group?

Thank you for submitting your question.
Could you please provide some more detailed information so we can better advise you?
Can you let us know:

- Which survey you are using (Include country name and year)?
-Which data files you are referring to?
- Which software you are using (Stata, SPSS, R, etc.)?

If you are trying to match a Table in a final report, please also indicate which table and which estimate you are trying to match.
