Which syntax do I use to find out the value of women who have experienced all of these three types of violence or at least one form of violence (sexual, emotional, or physical)? Please guide me in writing the syntax step by step for data analysis in SPSS.

Thank you for submitting your question. Could you please provide some more detailed information so we can better advise you?

Can you let us know:

- Which survey you are using (Include country name and year)?
- Which data files you are referring to?
- Which software you are using (Stata, SPSS, R, etc.)?

If you are trying to match a Table in a final report, please also indicate which table and which estimate you are trying to match.
