---

What is the current guidance on the tabulation of urban/rural residence by wealth quintiles? In the past there has been discussion on the potential for urban bias. Are there suggested approaches/calculations to address this?

Thank you for submitting your question. Could you please provide some more detailed information so we can better advise you?

Can you let us know:

- Which survey you are using (Include country name and year)?
- Which data files you are referring to?
- Which software you are using (Stata, SPSS, R, etc.)?

If you are trying to match a Table in a final report, please also indicate which table and which estimate you are trying to match.
