
Subject: Certain variables/questions not found on the questionnaire

Hi,

I am looking for the actual question for 'treated with respect at the facility' in the Kenya (IR) 2022 survey. I can see the variable in the dataset, but cannot find the question on the final reports/questions.

I noticed that the variable names starting with 's' are not on the questionnaire. Please let me know if there is any other report/document I should search for to find those questions.

Kind regards
Ghose

Hi Ghose

I understand your concern. It seems there might be a discrepancy between the variables in the dataset and the questions listed in the final reports. To find the specific question for 'treated with respect at the facility' in the Kenya (IR) 2022 survey, I recommend checking any supplementary documentation or technical appendices that accompany the survey reports. These often provide detailed information on variable definitions and survey questions not included in the main questionnaire.

Thanks

I believe you are looking for:

S446: Respondent treated with respect at facility

The questionnaires can be found here: <https://dhsprogram.com/pubs/pdf/FR380/FR380bis.pdf>

Hi Bridgette,

Thanks so much for your kind response.

Could you please recheck the url... it's taking me to the homepage of DHS and not the PDF report.

Thank you.

Ghose
