Hi,

I recently was granted access to DHS data for Chad. The experience has been incredibly helpful with my schoolwork, and I really appreciate.

However, I'm having difficulties to access the following information:

- 1- GPS data
- 2- shapefiles
- 3- HIV/Other Biomarkers Dataset
- 4- SPA Datasets.

This has impeded the process of my work. I'd profoundly appreciate your kind guidance in accessing these datasets.

Best regards,

CE.

Hi, you need to request geospatial data separately. It is a different process and additional forms to fill. You need to provide additional information on your research questions and intended analyses. The geospatial team at DHS will review and then grant you access.
