Hello,

I wanted to inquire about the type of insurance of respondents. I am particularly interested in the UNHCR type of insurance. What countries have data with this type of insurance specifically used by people living in a humanitarian setting? I know Jordan for example has such a type since it DHS collects data from Syrian displaced people. I just want a list of countries' names containing such type.

Thank you a lot!

Best,

Following is a response from DHS staff member, Tom Pullum:

DHS has a recent tool for searching the questionnaires:
<https://questiondatabase.dhsprogram.com/>. I hope it will be helpful. The questions about insurance coverage are very survey-specific.
