Hello,

I'm having difficulties finding the correct variables in the dataset to replicate table 15.1.3 in the KDHS 2022. Could you please point me to the right direction.

Thank you.

Following is a response from Senior DHS staff member, Tom Pullum:

I too had difficulty locating the variables! They are s916a in the IR file (for women) and sm606a in the PR file (for men). The variable labels are "how much paid in last month".

It is poor practice to have such counter-intuitive names and labels for variables. Sorry about that.
