Hi, I am currently working on an analysis of Nepal DHS2022 IR file NPIR82FL. I could not find the variable for the following items present on the questionnaire on fertility and contraception section:

1. Section 8: Q.820 Has your (husband/partner) or any other family member ever tried to pressure you to become pregnant when you did not want to become pregnant?

Q 819 When making this decision with your (husband/partner), would you say that your opinion is more important, equally important, or less important than your (husband's/partner's) opinion?

2. Section 3: Q 328 At that time, were you told that you could switch to another method if you wanted to or needed to?

Q 318 Have you used emergency contraception in the last 12 months?

I would be grateful if anyone can guide me through. Thank you!
