Dear All,

I need the mortality records (like the number of deaths) with the corresponding dates (for instance, on 30/jan/2008 there were 3 deaths). I started to explore the DHS data, but I am lost. I will be using all the available data over Africa. I prefer to use the R software. I will appreciate it if you could just give me one example to retrieve this information for any country and any year.

Thanks in advance, Yass
